

HUNT MINING CLOSES NON-BROKERED PRIVATE PLACEMENT OFFERING

Not for distribution to U.S. Newswire Services or for Dissemination in the United States

Liberty Lake, Washington, November 25, 2016 – Hunt Mining Corp. (the “Corporation”) (TSX VENTURE: “HMX”) announces it has closed its previously announced non-brokered private placement offering (“Private Placement”), previously announced on November 3, 2016.

The Private Placement resulted in aggregate gross proceeds of \$328,375, consisting of the issuance of 1,313,500 units at \$0.25 per unit, with each unit consisting of one common share and one common share purchase warrant (“Warrant”). Each whole share purchase Warrant shall entitle the holder to purchase one common share at a price of \$0.40, exercisable for a period of 24 months from closing, subject to acceleration after 12 months where shares trade on the TSX Venture Exchange for 20 consecutive days at or above \$1.00, when the Corporation will issue a news release. Warrants will expire 20 days after that 20th day, without further action or notice by the Corporation.

All securities issued under the private placement are subject to a four-month and one day hold period from the date of closing, the hold expiring March 25, 2017. The Private Placement is subject to TSX Venture Exchange approval.

The Corporation entered into a definitive agreement to purchase the Martha Project on February 10, 2016 and closed the acquisition of the Martha Project on May 12, 2016. The Corporation remains on schedule to resume production at the Martha Project in Q4 2016. In addition to the Martha Project and associated equipment at the facility, Hunt holds a large land position in the Santa Cruz Province, Argentina of 37 properties covering an area of 1,737 km sq. (429,407 acres).

Additional information on the Martha Project and other Santa Cruz, Argentina projects can be viewed on the Company website at: www.huntmining.com.

About Hunt Mining

Hunt Mining Corp. has continued to develop its properties as an active and aggressive explorer in Santa Cruz since 2006. During that time, Hunt's wholly owned subsidiary, Cerro Cazador S.A., has completed exploration activity including 62,000 meters of HQ core drilling, 416 line kilometers of Induced Polarization geophysical surveys and more than 20,000 surface soil, sediment, channel, chip, and trench samples, beyond the historical work previous to the same properties. Hunt also owns a 100% interest in the Martha property, which includes the Martha Project, also located in the Santa Cruz Province of Argentina.
